Stephanie,

I left Sarah a voice mail message but your voice mailbox isn't accepting messages. My call was pursuant to paragraph 50 of the UAO, which provides that notice of an unanticipated delay in performance under the UAO is to be given telephonically within 48 hours of becoming aware of the delay.

In that the government remains shut down and there are no predictions of when that would end, we provide the notice of delay by this email message. As you know, EPA's September 5 letter extended the deadline to demonstrate financial assurance to October 15, with the expectation that we would meet before that date to discuss next steps. Since we haven't met to discuss next steps and EPA is on furlough, we haven't been able to seek a further extension of time.

When the government is no longer shut down, we will seek an extension of time to demonstrate financial assurance.

Regards,
Carol
